CERCLA Penalty for Presenting Fraudulent Claim

Any person who knowingly gives or causes to be given false information as a part of a claim against the Hazardous Substance Superfund may, upon conviction, be fined in accordance with the applicable provisions of Title 18 of the United States Code or imprisoned for not more than 3 years (or not more than 5 years in the case of a second or subsequent conviction), or both (42 USC 9612 (b)(1))

Civil Penalty for Presenting Fraudulent Claim

The claimant is liable to the United States for a civil penalty of \$2,000 and an amount equal to two times the amount of damages sustained by the Government because of the acts of that person, including costs of the civil action.

Criminal Penalty for Presenting Fraudulent Claim or Making False Statements

The claimant will be charged a maximum fine of not more than \$10,000 or be imprisoned for a maximum of 5 years, or both (See 62 Stat. 698, 749; 18 USC 287, 1001)

INSTRUCTIONS TO APPLY FOR PREAUTHORIZATION OF A CERCLA RESPONSE CLAIM

This form is to allow parties to apply for EPA preauthorization of a claim against the Hazardous Substances Superfund (Fund) as authorized by sections 111(a)(2) and 112 of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA). EPA preauthorization is required before a party can begin response work if that party desires Fund reimbursement of his/her response costs. The regulatory procedures for obtaining preauthorization from EPA are found at 40 CFR Part 307. The public reporting and recordkeeping burden for this collection of information is estimated to average 129 hours per response or to range from 92.5-165 hours per respondent annually. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, OPPE Regulatory Information Division, U.S. Environmental Protection Agency (2137), 401 M St., S.W., Washington, D.C. 20460.

Include the OMB control number in any correspondence. Do not send the completed form to this address.

The applicant bears the burden for demonstrating that scarce Fund resources should be utilized for this project. Consequently, all preauthorization applications should be factually thorough, well-documented and based on sound analysis. Due to the complexity of the issues involved, it is in the applicant's best interest to organize the submission so that it can be easily read by EPA officials.

In many cases, the spaces provided on this form will be insufficient for a full presentation of the information solicited. In such circumstances, the applicant shall attach typewritten sheets and provide clear cross-references between the items on this form and the attachments.

A number of items will also require that the applicants provide appendices. In these appendices, the applicants shall supply sufficient documentation to support the statements presented in the form. Since it would be impractical and undesirable to include all supporting data, the appendices should usually consist of detailed summaries of the primary data. However, the original documentation should be identified, catalogued and available for presentation, if requested. As with the attachments, the applicant shall provide clear cross-references between this form and the appendices.

Applicants should consult 40 CFR Section 307.22 (g) to assert any claims of business confidentiality.

When completed, this form should be sent to:
U.S. Environmental Protection Agency
401 M Street, S.W.
Washington, D.C. 20460
Attention: Director, Office of Emergency and Remedial Response (OS-220)

The sections below provide instructions for particular items on the claim form.

- I. A. Provide the name, title and address of the person(s) submitting this application. If the claim is submitted by a group of persons who have created a legal entity to act as claimant, information should be provided concerning the identity and location of both the entity and the constituent parties.
- B. Self-explanatory.
- C. Check all that apply.
- D. "Agent" refers to any duly authorized agent, executor, administrator or other legal representative of the applicant. If this preauthorization application is submitted by such an agent, he/she must present evidence of authority to so represent the applicant.
- II. A.-C. Self-explanatory.
- D. This description must include the following information: The type of vessel and facility; the type and quantity of hazardous substance (including whether the substance is listed under CERCLA section 102); and a description of the surrounding population and/or environmental risk.
- E. Self-explanatory.
- III. A. Check whether you are a person who EPA previously identified as a potentially responsible party (PRP).
- B. Check whether you have reason to believe, without regard to whether a defense under Section 107(b) may be available, that you may be a person described as follows:
 - 1) the owner or operator of a vessel or facility.
 - 2) any person who at the time of disposal of any hazardous substance owned or operated any facility at which such substances were disposed of.
 - 3) any person who by contract, agreement, or otherwise arranged for disposal or treatment, or arranged with a transporter for transport for disposal or treatment, of hazardous substances owned or possessed by such person, by any other party or entity, at any facility or incineration vessel owned or operated by another party or entity and containing such hazardous substance, or
 - 4) any person who accepts or accepted any hazardous substances for transport to disposal or treatment facilities, incineration vessels, or sites selected by such person, from which there is a release, or a threatened release of a hazardous substance, which causes the incurrence of response costs.
- C. If you checked YES for item A or B and NO for this item, explain why this application is not to be approved in the context of a consent order or decree. Describe the status of any settlement negotiations.
- D. List all PRPs known to you. Describe any contacts with PRPs and any reply from such parties. If PRPs are unknown, describe efforts to locate PRPs.
- IV. A. Self-explanatory
- B. Describe the response action(s) that is the subject of this request (e.g. removal, RI/FS, selection of remedy, design, construction), and methods proposed for carrying out such actions, including site sampling and quality assurance procedures. Address the requirements contained in 40 CFR 307.22.
- C. Worker/community health and safety plan. The worker plan must comply with OSHA Safety and Health standards at 29 CFR Part 1910.120. The community plan must address the protection of area residents from the physical, chemical, and/or biological hazards particular to the site and the selected response.
Community Relations Plan. The applicant need not develop a plan if the response action is of short duration or a community relations plan already exists for the site at issue.
ARARs. See 40 CFR Sections 300.400(g), 300.430(f)(3)(iv).
- V. Include a discussion of financial and technical/scientific capabilities.
- VI. If a letter of cooperation signed by the designated State or Indian Tribe is not attached to an application to undertake a remedial action, explain the efforts made by the applicant to obtain such cooperation.
- VII. Self-explanatory.
- VIII. A. The figures provided on the form should be the overall cost for a particular type of response activity (e.g., removal, RI/FS, design). Documentation should be attached to support each cost figure. In addition, the applicant must explain why each of the proposed costs is "necessary." "Necessary" costs are those which are 1) required, 2) reasonable, 3) allowable and 4) allocable according to Federal cost principles. Federal cost principles are presented in the following documents: OMB Circular A-87 (State and local governments and Federally recognized Indian Tribes); OMB Circular A-122 (non-profit organizations); 48 CFR 31.1, 31.2 (profit-making organizations).
- B. A proposed schedule for the submission of claims should be provided. Applicants are encouraged to propose reimbursement based upon cash-flow considerations. The goal of an applicant should be to balance major capital expenditures and the completion of discussed tasks against the number and frequency of claims.
- IX. Self-explanatory.
